Avail High-quality DAS-C01 100% Exam Coverage to Pass DAS-C01 on the First Attempt  
100% PASS Installing and Configuring AWS Certified Data Analytics exam Today, It's completely not overstated that the DAS-C01 free download pdf can be regarded as the representative of authority.

Only when you choose our DAS-C01 guide torrent will you find it easier to pass this significant DAS-C01 examination and have a sense of brand new experience of preparing the DAS-C01 exam.

The goal of our DAS-C01 latest exam guide is prompting you to challenge your limitations, Just make sure that you study the Questions and Answers product of respective Exam for three to five days before you appear in actual Exam.

You will witness your positive changes after completing learning our DAS-C01 study guide, This amazing exam tool is far more effective than exam simulators as well as AWS Certified Data Analytics DAS-C01 dumps APP files, available online.

You can use the questions and answers of Khimunin Amazon DAS-C01 exam training materials to pass the exam, Free update for one year is also available, and in **DAS-C01 100% Exam Coverage** this way, you can get the latest information for the exam during your preparation.

#### **NEW QUESTION: 1**

You develop an ASP.NET Web API that is hosted as an Azure Web App. The API uses a WebJob to process information. The WebJob has a very long start up time.

You configure the WebJob to run continuously. You observe that the WebJob is not running and processing information as expected.

You need to ensure the WebJob runs continuously.

What should you do?

- A.** Schedule the WebJob by using the Azure Scheduler.
- B.** Include a settings.job JSON file at the root of the WebJob zip file and include a valid CRON expression.
- C.** Update the API to self-host by using the Open Web Interface for .NET (OWIN). Migrate the API to Azure Service Fabric.
- D.** Enable the Always On configuration setting for the Web App.

**Answer: D**

Explanation:

Always On. By default, web apps are unloaded if they are idle for some period of time. This lets the system conserve

resources. In Basic or Standard mode, you can enable Always On to keep the app loaded all the time.

If your app runs continuous WebJobs or runs WebJobs triggered using a CRON expression, you should enable Always On, or the web jobs may not run reliably.

### **NEW QUESTION: 2**

Select the Exhibit tab.

Your customer has an AFF A300 installed. They ask you to configure the e0a and e0b ports to use the FC protocol. Referring to the exhibit, which statement is correct in this scenario?

**A.** These ports are used for the Ethernet uplink into the customer's network.

**B.** The configuration of these ports can only be done by OnCommand System Manager.

**C.** Use the ucadmin command to configure these ports as FC ports.

**D.** These ports are used for the cluster interconnect.

**Answer: B**

### **NEW QUESTION: 3**

You need to automatically restart the appropriate web service on DETCRL01 and CHICRL01 if the web service is stopped.

Solution: You create a diagnostic task in SCOM and configure it to start the Server service.

Does this meet the goal?

**A.** Yes

**B.** No

**Answer: B**

Explanation:

It is not the Server service that needs to be restarted. The Internet Information Services (IIS) World Wide Web Publishing Service (W3SVC), which manages the HTTP protocol and HTTP performance counters, needs to be restarted.
