NEW QUESTION: 1

You plan to deploy an application as a cloud service. The application uses a virtual network to extend your on-premises network into Azure.

You need to configure a site-to-site VPN for cross-premises network connections.

Which two objects should you configure? Each correct answer

presents part of the solution.

- A. External-facing IPv6 address
- B. Dynamic routing gateway
- C. VPN gateway
- D. External-facing IPv4 address

Answer: B,C

NEW QUESTION: 2

What does the HTTP status codes 1XX represents?

- A. Informational message
- B. Redirection
- C. Client error
- D. Success

Answer: A

NEW QUESTION: 3

Are animations enabled by default in Tableau?

- A. Yes
- B. No

Answer: B

Explanation:

Explanation

No, by default, animations are not enabled in Tableau.

We can animate visualizations to better highlight changing patterns in your data, reveal spikes and outliers, and see how data points cluster and separate.

Animations visually transition between filter, sort, and zoom settings, different pages, and changes to filter, parameter, and set actions. As visualizations animate in response to these changes, viewers can more clearly see how data differs, helping them make better informed decisions.

When you author animations, you can choose between two different styles: simultaneous or sequential. Here are examples of each type.

1) Simultaneous animations

The default simultaneous animations are faster and work well when showing value changes in simpler charts and dashboards.

2) Sequential animations

Sequential animations take more time but make complex changes clearer by presenting them step-by-step.

To Animate visualizations in a workbook:

1) Choose Format > Animations.

2) If you want to animate every sheet, under Workbook Default, click On. Then do the following:

For Duration, choose a preset, or specify a custom duration of up to 10 seconds.

For Style, choose Simultaneous to play all animations at once

or Sequential to fade out marks, move and sort them, and then fade them in.

3) To override workbook defaults for a particular sheet, change the settings under Selected Sheet.

NEW QUESTION: 4

Match the Azure Cloud Services benefit to the correct description.

Instructions: To answer, drag the appropriate benefit from the column on the left to its description on the right.

Each benefit may be used once, more than once, or not at all.

NOTE: Each correct match is worth one point.

Answer:
