Section: (none)

NEW QUESTION: 3

The risk register contains which of the following?

- A. Identified risks and potential responses
- B. Identified risks and updates to scope baseline
- C. Risk related contract decisions
- D. Risk management plan

Answer: A

Explanation:

Explanation: A Risk Register is a Risk Management tool commonly used in Project Management and organizational risk assessments. It acts as a central repository for all risks identified by the project or organization and, for each risk, includes information such as risk probability, impact, counter-measures, risk owner and so on. It can sometimes be referred to as a Risk Log
