- A. HOTP
- B. TOTP
- C. PAP
- D. CHAP

**Answer: A**

Explanation:

The question states that the HMAC counter-based codes and are

valid until they are used.

These are "one-time" use codes.

HOTP is an HMAC-based one-time password (OTP) algorithm. HOTP can be used to authenticate a user in a system via an authentication server. Also, if some more steps are carried out (the server calculates subsequent OTP value and sends/displays it to the user who checks it against subsequent OTP value calculated by his token), the user can also authenticate the validation server. Both hardware and software tokens are available from various vendors.

Hardware tokens implementing OATH HOTP tend to be significantly cheaper than their competitors based on proprietary algorithms. Some products can be used for strong passwords as well as OATH HOTP.

Software tokens are available for (nearly) all major mobile/smartphone platforms.

## **NEW QUESTION: 2**

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. Username and password

Use the following login credentials as needed:

To enter your username, place your cursor in the box and click on the username below.

To enter your password, place your cursor in the box and click on the password below.

You need to create a public folder named Folder1 to meet the following requirements:

\* Any users in your organization must be able to send email to Folder1.

\* A user named Lee Gu must have Full Control permissions on Folder1.

To complete this task, sign in to the Microsoft 365 admin center.

**Answer:**

Explanation:

See explanation below

Explanation

You need to create a public folder, mail enable it and configure the permissions.

1. Go to the Exchange Admin Center.
2. Click Public folders.
3. Select Public Folder Databases. If a database exists, skip to step 6. If there is no public folder database, you'll need to create one.
4. Click the plus (+) sign to add a new public folder database.
5. Give the new public folder database a name and click Save.
6. Select Public Folders.
7. Click the plus (+) sign to add a new public folder.
8. Name the public folder 'Folder1' and click Save.
9. Select the public folder. Under 'Mail settings - Disabled', select the 'Enable' link.
10. Click Yes to confirm.
11. Under 'Folder Permissions', select the 'Manage' link.
12. Click the plus (+) sign to add a user.
13. Click the Browse button to find and select Lee Gu.
14. In the Permission Level drop-down list, select 'Owner'.
15. Click Save to add the user.
16. Click Save again to save the changes.

**NEW QUESTION: 3**

Your organization has developed and deployed several Azure App Service Web and API applications. The applications use Azure SQL Database to store and retrieve data. Several departments have the following requests to support the applications:

You need to recommend the appropriate Azure service for each department request.

What should you recommend? To answer, configure the appropriate options in the dialog box in the answer area.

NOTE: Each correct selection is worth one point.
