#### **NEW QUESTION: 2**

A. Option B

B. Option A

C. Option D

D. Option C

**Answer: A**

#### **NEW QUESTION: 3**

What process uses test data as part of a comprehensive test of program controls in a continuous online manner?

A. Parallel simulation

B. Test data/deck

C. Base-case system evaluation

D. Integrated test facility (ITF)

**Answer: C**

Explanation:

Explanation/Reference:

Explanation:

A base-case system evaluation uses test data sets developed as part of comprehensive testing programs, it is used to verify correct systems operations before acceptance, as well as periodic validation. Test data/ deck simulates transactions through real programs. An ITF creates fictitious files in the database with test transactions processed simultaneously with live input. Parallel simulation is the production of data processed using computer programs that simulate application program logic.

#### **NEW QUESTION: 4**

Overview

Proseware, Inc. is a software company.

Proseware has 5,000 employees, of which 3,500 employees work in production, 1,000 employees are development engineers, and 500 employees work in sales, marketing, and administration.

Existing Environment

Current Environment

Proseware has an Enterprise Agreement (EA) that includes Microsoft Office Professional Plus, Microsoft Core Cal Suite, and Windows 10 Enterprise.

The company's on-premises datacenter contains servers that run Windows Server Datacenter to support unlimited virtualization. Windows Server was purchased as an additional product through the EA. The company has a total of 160 Windows Server Datacenter core licenses.

Problem statements

Proseware identifies the following issues:

The hardware and supporting infrastructure of the on-premises datacenter is outdated.

The most experienced employees in the IT department are retired and the company fails to replace

them with qualified candidates.

Requirements

Business Goals

Proseware has the following business goals:

Use the latest technologies and products.

Ensure that all new purchases have price protection for three years.

Update the infrastructure without a large upfront investment and without tying up capital.

Outsource the management of and global migration strategy for online services while minimizing costs.

Maintain the on-premises datacenter while reducing the number of IT employees required to support it.

Leverage the existing investment in on-premises products to reduce the overall cost of online services.

Provide a modern work environment for the development engineers to work remotely and on any

device while protecting the company's intellectual property.

Planned Changes

Proseware plans to implement the following changes:

When the current EA expires, move to equivalent Microsoft Online Services that have the highest

security standards for all workloads.

Obtain a management tool for the on-premises servers.

This question requires that you evaluate the underlined text to determine if it is correct.

Proseware is evaluating whether to move workloads from the on-premises datacenter to the cloud.

When leveraging the Microsoft Azure Hybrid Benefit, the company is allowed to use its Windows Server licenses on up to 320 virtual cores on Azure.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

**A.** Azure only after uninstalling Windows Server from the on-premises servers

**B.** up to 32 Azure Virtual Machines ("Base Instances")

**C.** No change is needed.

**D.** Azure and the on-premises servers simultaneously

**Answer: D**

Explanation:

Explanation/Reference:
