#### **NEW QUESTION: 1**

Your network contains an Active Directory domain named contoso.com. The domain contains five servers. All servers run Windows Server 2016.

A new security policy states that you must modify the infrastructure to meet the following requirements:

- \*Limit the rights of administrators.

\*Minimize the attack surface of the forest  
\*Support Multi-Factor authentication for administrators.  
You need to recommend a solution that meets the new security policy requirements.

What should you recommend deploying?

- A. the Local Administrator Password Solution (LAPS)
- B. domain isolation
- C. an administrative forest
- D. an administrative domain in contoso.com

**Answer: C**

Explanation:

You have to "-Minimize the attack surface of the forest", then you must create another forest for administrators.  
[https://docs.microsoft.com/en-us/windows-server/identity/securing-privileged-access/securing-privilegedaccess-reference-material#ESAE\\_BM](https://docs.microsoft.com/en-us/windows-server/identity/securing-privileged-access/securing-privilegedaccess-reference-material#ESAE_BM) This section contains an approach for an administrative forest based on the Enhanced Security Administrative Environment (ESAE) reference architecture deployed by Microsoft's cybersecurity professional services teams to protect customers against cybersecurity attacks. Dedicated administrative forests allow organizations to host administrative accounts, workstations, and groups in an environment that has stronger security controls than the production environment.

#### **NEW QUESTION: 2**

You were assigned recently as the project manager of a program management office project to implement a new enterprise-wide scheduling system for use throughout your company. You identify the need for a project charter to provide you with appropriate authority for applying resources, completing the project work, and formally initiating the project. Who should issue the project charter?

- A. The project manager you
- B. The person who formally authorizes the project
- C. The customer
- D. A member of the training and development department as they will own the training on the new system

**Answer: B**

Explanation:

The charter is issued by the project initiator or sponsor who formally authorizes the existence of a project and provides the project manager with the authority to apply organizational resources to project activities. [Initiating]
