NEW QUESTION: 1

Your network contains an Active Directory forest named adatum.com. The forest contains a single domain. The domain contains four servers. The servers are configured as shown in the following table.

You need to update the schema to support a domain controller that will run Windows Server 2012 R2.

On which server should you run adprep.exe?

- A. Server1
- B. DC1
- C. DC3
- D. DC2

Answer: A

NEW QUESTION: 2

You have a laptop named Computer1. Computer1 runs Windows 8 Enterprise.

Computer1 has a wired network adapter and a wireless network adapter. Computer1 connects to a wireless network named Network1.

For testing purposes, you install Windows Server 2012 R2 on Computer1 as a second operating system. You install the drivers for the wireless network adapter.

You need to ensure that you can connect to Network1 from Windows Server 2012 R2.

What should you do?

- A. From a local Group Policy object (GPO), configure the settings of Windows Connection Manager.
- B. From Server Manager, install the Wireless LAN Service feature.
- C. Restart the WLAN AutoConfig service.
- D. From a local Group Policy object (GPO), configure the Wireless Network (IEEE 802.11) Policies settings.

Answer: B

Explanation:

The Wireless LAN service in Windows Server 2012 R2 can be used to enable the wireless WLAN AutoConfig service, and to configure the WLAN AutoConfig service for automatic startup. Once enabled, the WLAN AutoConfig service dynamically selects which wireless network the computer automatically connects to, and configures the necessary settings on the wireless network adapter. This includes automatically selecting and connecting to a more preferred wireless network when one becomes available. This will thus ensure that you can connect to

Network1 from Computer1.

NEW QUESTION: 4

Can a Direct Connect link be connected directly to the Internet?

- A. Yes, this can be done if you pay for it.
- B. Yes
- C. Yes, this can be done only for certain regions.
- D. No

Answer: D

Explanation:

AWS Direct Connect is a network service that provides an alternative to using the Internet to utilize AWS cloud service. Hence, a Direct Connect link cannot be connected to the Internet directly.
